LAUFEN PRO

LAUFEN pro is a comprehensive bathroom range, which offers the ideal solution for every spatial situation and requirement and also reflects the building values of the current generation.

Industrial design is the modern answer to the once revolutionary idea that everyone has a right to enjoy beautiful forms. Good design is now no longer a right reserved for the most affluent customers. Modern methods of industrial production and designers such as Peter Wirz of Vetica, who put optimum manufacturing feasibility at the forefront of their creative processes, make such sanitary ware ranges as LAUFEN pro possible. This does not just benefit the designer, more importantly, it also benefits the customer.

INSTALLATION AND USER MANUALS

Designed by

PETER WIRZ

"Purposely developed as an affordable designer product, LAUFEN pro was aimed at optimizing ceramic manufacturing processes... I think we managed it very well. LAUFEN pro is a stylish example of how a unique look can be achieved with simple means. We were inspired primarily by two basic forms, the square and the circle. It allowed us to design even such an extensive bathroom ceramics and furniture series like LAUFEN pro with consistency and maximum recognition value."
